Other:

The code of conduct signed by all players/coaches does not seem to be adhered to. There have been issues among the different age levels for a few months that need to be addressed. After discussion locker rooms will be locked during practices. Coaches will have a talk with players.

Due to different groups sharing ice, the purchase of barriers for ice was brought up. These barriers are put down the middle of the ice to prevent players and pucks from crossing over into others practice sessions. It was thought this to be a good idea but cost and storage of these barriers needs to be researched.

Northern VA has an adult LTP program. Not sure if there would be interest but the ice time is also an issue. Can be thought about and discussed at another time.
